“ *Boppa I'll NEVER forget our times together we had so many including chivettas chicken for the first time ever haha. But my favorite was always getting that big hug from you, aside from your chilli sauce which we all miss so much. Me dad and Oliver used to sit and eat your chili sauce and mimis pickles and just share memories from the past and it brought is closer as a family. I'd give anything to have that back, and the sauce lol. I love and most you as chrostmaz comes closer ...*

“ *Boppa you are dearly missed. I remember sunset bay our last family reunion, you sat and talked to me at the beach for a little while as we watched the sun start to go down and you told me how you missed buffalo and about raising your children there especially my dad. We laughed we cried and we hugged. And I will never forget your hugs, how your big hands warped around me and held me tight. It was in those moments o always felt the most love and protection. It's been 4 years now you have been gone and it doesnt get easier but you live on amount us and always will. Hope you are enjoying seeing uncle robbie again* 💕💕
