“ GodSpeed Momma Sue

You were like a Second Mom to many of us growing up in California and especially to me because for some reason and it seemed you made a special place in your heart for this wild child and I always appreciated it more than you will ever know

You always opened your House and Heart to everyone around you and took us in when we were at some of the most low times in our lives and helped to get us back on our feet again and never once asked for anything in return.

Some of my most found memories growing up are from the house in the hills and I will never forget them.

You were always a kind, gracious and giving soul that myself and many others have been lucky enough to have been a part of our lives and the world can't help but be a little less bright without you in it

I am beyond sure that you are with God now and that he or she has a divine purpose for you now so please look down on us from time to time and help us along our mortal path until we meet again

I will always love and hold you in my heart till the end of time

Your Loving Son

Tony thank you for sharing this, it touches my heart. She was such a generous soul. I always say that mom made so many deposits in my love bank that I can make withdrawals till the end of my time and I will never go bankrupt because of her love. You know we had our differences and I may not have handled things the way I should have, but that was all water under the bridge. We were so close, best friends. I was so blessed to have her as my mom, Nano to my kids. My granddaughter just broke our hearts sharing so eloquently at 5 years old, that her "Nano is now up in heaven with Aunt Jazzy and doesn't have to wear a mask anymore and Aunt Jazzy isn't in a wheel chair anymore and that is a better place. So it's okay, even though we are sad. and I loved her the best!" So beautiful right?! Love your Sister, Linda

“Susie was one of the most loving souls I have ever known. To me she was a mother, a mentor and a friend. I learned so much from her looking at life through her eyes. I love you so much and I will miss you always "care bear"”

“I had the privilege of working with Sue sometime back. She was spunky and kind and always willing to help. Sue was a wealth of knowledge and admired by many. She had a smile that would light up the room and it was always so easy to get her to laugh. Sue spoke of her family often to the point that you felt you had known them for years. Although I hadn't seen Sue in years, she was always a special memory from my time working with her. She will truly be missed by many and I am sure she is busy setting up her "new front porch" for many to sit and chat awhile. Much love Sue!!”
