“ Well Daddy, it has been a few weeks since you passed away, and I still wait for you to call every day to see what is on tv for ya, or how to get you on your favorite channel, and to make sure you had taken your medicine and eaten something. Some days I admit I would get a little frustrated with ya asking me the same thing over and over, but now I would give anything just for you to ask me one more time. Even for you to ask me what day it is, but I know you are up there with mom, Ruby, and grandma, grandpa, and your brothers and sister having a good time. Love your oldest, Brenda Sue

“ neal taught me how to drive tractor trailer in 1972' that's when I married into the family to his lovely daughter Brenda sue. neal was responceable for my first truck driving job. with jones chemical of Barberton,ohio. and it has provided a good living for me and my family ever since.neal has never question me on how to raise my family, he has always been there for advice if I need it. some times he would let me fail in what I doing so it would teach me a lesson. but through it all he has treated me as a son-in-law should be treated. some times with harsh words and some time with kind words. reguardless, for the last 44 years he has been my father-in-law. and iam very proud to have him as my father-in-law. you will always be in my heart. bye.
